Audit Findings

Audit Narrative

Methodology:

The PREA audit of the Midland Evaluation Center (MEC) was conducted August 8-9, 2018. MEC is operated by the South Carolina Department of Juvenile Justice (SCDJJ). The Midland Evaluation Center (MEC) hereinafter may be referred to as the facility.

The auditor will use a triangular method approach, by connecting the PREA audit documentation, on-site observation, tour, practice, interviewed staff, residents, local and national advocates to make determinations for each standard.

Pre- Audit Phase:

During the pre-onsite audit phase, the facility received instructions to post the required PREA Audit Notice of the upcoming audit prior to the audit for confidential communications. As of August 4, 2018, there were no communications from residents and staff.

The PREA requires the auditor to conduct outreach to relevant national and local advocacy organizations. To communicate with community-based or victim advocates who may have insight into relevant conditions in the facility. The following national advocacy, state and/or community advocacy organizations were contacted.

Advocacy Organization	Note (s)
SC Prison Rape Crisis Advocate Sexual Trauma Services of the Midlands (STSM)	- First Call: 10/16/18 @ 11:38am no answer. - Second Call: 10/22/18 @12:11pm, the center stated that there were no concerns.
Just Detention International (JDI)	- Information request submitted 10/11/18. No response.
South Carolina Coalition Against Domestic Violence and Sexual Assault	- Information request submitted 10/11/18. No response.
National Sexual Violence resource Center (NSVRC)	- Information request submitted 10/11/18. No response.

The auditor and associate ask the local and/or national advocacy organizations the following questions:

1. How many SAFE or SANE referrals made in the last 12 months?
2. Can the resident remain anonymous, upon request, when making a report?
3. Who do you notify at the facility regarding the report?
4. How many reports have the organization received in the last 12 months for advocacy services?

5. How many residents reported sexual abuse and/or sexual harassment?

The Pre-Audit Questionnaire was completed and sent to the auditor as required. As a part of the on-site visit the auditor requested that the facility PREA compliance manager review and revised the Pre-Audit Questionnaire to reflect updated information to include the current population.

The auditor completed a documentation review using the Pre-Audit Questionnaire, internet search, policies and procedures review, and additional documentation provided on the flash drive, to include both the agency and the facility policy and procedures, agency mission statement, daily population report, schematic/layout for the facility.

The results of the documentation reviewed were shared with the facility prior to and at the site visit. Phone conversations were conducted, and emails were exchanges occurred with the facility.

The following documentation was requested for the on-site audit phase:

- Resident Roster (100%)
- Residents with Disabilities
- Residents who are Limited English Proficient (LEP)
- LGBTI Residents
- Residents in segregated housing (PREA Related)
- Residents who Reported Sexual Abuse
- Residents who Reported Sexual Victimization During Risk Screening
- Staff Roster
- List of Specialized Staff
- Staff Personnel Files
- Resident Files
- List of Contractors who have contact with Residents
- List of Volunteers who have contact with Residents
- Grievances made in the 12 months preceding the audit
- Allegations of sexual abuse and sexual harassment reported for investigation in the 12 months preceding the audit
- General Incident Log
- All hotline calls made during the 12 months preceding the audit
- All incidents within the past 12 months

On-Site:

The on-site audit process was a team approach. The audit team consisted of Adam T. Barnett, Sr., USDOJ Certified Juvenile and Adult PREA Auditor (Lead Auditor) and Latera Davis (Associate). Mrs. Davis currently works as the Director of Victim and Volunteer Services for the Georgia Department of Juvenile Justice. She is a Licensed Clinical Social Worker, Certified Child Forensic Interviewer, Certified Victim Advocate, Certified Juvenile Sex Offender Counselor, POST Instructor Trainer, as well as a Certified Peer Grant Reviewer for the

Department of Justice Programs. Mrs. Davis has completed the Department of Justice PREA class for Certified Auditors, May 2018 and is now a certified PREA auditor.

On August 8, 2018, the entrance conference was held and attended by:

- USDOJ Certified PREA auditor
- Agency PREA coordinator
- Agency PREA specialist
- Facility administrator
- Facility PREA compliance manager

Welcomes were given by the facility administrator. The auditor introduced himself and provided a brief description of his experiences, qualifications, correctional and auditing background. The auditor also shared information regarding Latera Davis, the associate. The audit agenda was reviewed and discussed, to include resident population size based on first day, and a review of the second day activities. Additional pre-onsite audit information requested weeks prior to the on-site visit was obtained.

Tour

On the first day of the audit after the entrance conference, the auditor toured the physical plant. It was requested that when the auditor paused to speak to a resident or staff, that the facility staff on the tour please step away so the conversation may remain private.

During the tour, the auditor observed the locations of video monitoring cameras inside and outside of the facility. The cameras are monitored 24 hours a day. None of the cameras fields of view included the toilet and shower areas in the living units. The auditor noted that shower and toilet areas allow residents to shower ensuring their privacy from staff direct viewing. The auditor observed the locations of grievance boxes and discussed how often grievances were collected. Resident's phones were checked to ensure they were working with a dial tone and hotline number. The auditor was provided unimpeded access to all parts of the facility and all secure rooms and storage areas in the facility.

There was sufficient opportunity to view resident and staff interaction. There was ample time to observe the nature and quality of resident supervision throughout the on-site audit process; and in all instances the auditor observed appropriate respect on the part of both residents and staff. Staff youth ratios were observed during the tour and the facility was compliance.

The PREA standards require the auditor to tour the facility to verify compliance with the standards. The following areas and location were visit.

Summary of Audit Findings

The agency PREA coordinator requested that the auditor conducted the exit conference for JDC and MEC facilities on August 10, 2018 at the agency central office with agency and facility officials. Agency and Facility officials were very open and receptive to an honest discussion of areas that were non-compliant.

The following were standards and provisions that were non-compliant.

Standard 115.317 – Hiring and Promotion Decisions

- **Concern:** The standard requires the agency not hire or promote anyone who may have contact with residents, and shall not enlist the services of any contractor who may have contact with resident who:
 1. Has engaged in sexual abuse in a prison, jail, lockup, community confinement facility, juvenile facility, or other institution;
 2. Has been convicted of engaging or attempting to engage in sexual activity in the community facilitated by force, overt or implied threats of force, or coercion, or if the victim did not consent or was unable to consent or refuse;
 3. Hire or promoted person has been civilly or administratively adjudicated to have engaged in any sexual activity.

The agency does not ask applicants, new hires or promote staff information regarding prior history of sexual abuse as required by the standard and cannot provided documentation.

- o **Corrective Action:** On August 7, 2018, several representatives from the Office of Human Resources, including the HR Director met with the auditor to review and determine if this office complied with the PREA standard 115.317. After the review, it was determined that there was a deficiency. The Office of Human Resources corrected this deficiency on August 7, 2018 and provided the auditor with evidence and proof of the correction via email. The deficiency was correct by adding the required information in a question format as a part of the State

Employment Application under the agency-wide questions section of the application.

Rating: Compliant

Standard 115.332: Volunteer and contractors

- **Concern:** The standard requires the agency to ensure that all volunteers and contractors who have contact with residents have been train on their responsibilities under the agency’s sexual abuse and sexual harassment prevention, detection, and response policies and procedures.

Interview with a volunteer on-site indicated that the facility or agency has not provided the required PREA training.

- o **Corrective Action:** The agency provided documentation that the volunteer received the required PREA training and signed documentation stating they understood the zero-tolerance policy.

Rating: Compliant

- **Concern:** The language in the volunteer protocol needs to require volunteers to report PREA incidents immediately to staff and/or supervisor on duty. The current language requires volunteers to report PREA incidents to the Office of Volunteer Services or the Facility Volunteer coordinator, which delays the reporting process of sexual abuse and/or sexual harassment.

Interview with the facility volunteer coordinator revealed that two weeks ago a volunteer reported that a female resident pulled her the side and reported that she was a part of a “sex trafficking group”. According the facility volunteer coordinator, it was reported to the Office of Volunteer Services. I have requested all documentations to include the investigation report. It appears that the PREA allegation did not get to the appropriate office in a timely manner.

- o **Corrective Action:** The agency provided a memo in response to item “5” on the Corrective Action Plan form provided; the following item have been completed. To correct the deficiency, the Juvenile Detention Center provided the PREA Unit with a copy of the completed form A-5.5F; Volunteer’s Certification of Orientation and DJJ Policy H-Agreement, to ensure compliance with Juvenile Facility standard 115.332 (a) and DJJ Policy H-3.16 (D). Note: the volunteer visit both JDC and MEC).

Standard 115.341: Obtaining information from residents (PREA Screenings)

- **Concern:** The standard requires, within 72 hours of a resident' arrival at the facility and periodically throughout a resident's confinement, that the facility obtain and use information about each resident's personal history and behavior to reduce the risk of sexual abuse by or upon a resident. Such assessment shall be conducted using an objective screening instrument an at a minimum, ascertain of the information below:
 - Prior sexual victimization or abusiveness;
 - Any gender nonconforming appearance or manner or identification as lesbian, gay, bisexual, transgender, or intersex, and whether the resident may therefore be vulnerable to sexual abuse;
 - Current charges and offense history;
 - Age;
 - Level of emotional and cognitive development;
 - Physical size and stature;
 - Mental illness or mental disabilities;
 - Intellectual or developmental disabilities;
 - Physical disabilities;
 - The resident's own perception of vulnerability; and
 - Any other specific information about individual residents that may indicate heightened needs for supervision, additional safety precautions, or separation from certain other residents.

The facility does not have a risk of sexual victimization and abusiveness screening instrument that meets all 11 requirements of the standard. The facility is not conducting PREA Screenings. However, the facility is conducting intake screenings, medical screening, and mental health screenings. The facility practice does not ensure that all residents are assessed for risk of sexual victimization and abusiveness during the intake screening using an objective screening instrument.

Additionally, the facility must consider prior acts of sexual abuse, prior convictions for violent offenses, and any history of prior institutional violence or sexual abuse if known to the facility.

The agency has created and provided the auditor with a standardized risk assessment tool to screen for sexual vulnerability or abusiveness instrument adapted with permission from the Colorado Division of Youth Services, 2017 with assistance from the PREA Resource Center, 2018. The new draft standardized risk assessment tool met all requirements include in the standard. The agency has formed a committee that includes

psychologists and social workers to formalize the new process and oversee the implementation.

The agency also provided the guidelines on how to complete the PREA screening instrument and how to apply information obtained. Implementation of the new screening instrument was introduced at JDC and MEC facilities.

The New Vulnerability of Victimization or Sexual Aggression Screening (VVSAS) PREA Screening Instrument obtains the following information from the residents.

- Demographics
- Juvenile Information
- Juvenile Interview
- Age of Youth
- Experience in Institution
- Social Skills
- Perception of Risk
- History of Victimization
- Offense Type
- Violent Offense
- Intellectual Impairment
- Lack of “Fit” Adjustment
- SOGIE (Sexual Orientation, Gender Identity and Gender Expression)
- Medical Disabilities
- Mental Health
- VVSAS Scoring: Vulnerability to Victimization, Sexually Aggressive Behavior, Violent Aggressive Behavior and Overall Score
- Overall Risk Score
- Screening Override (Justification comments and override supervisor comments)

The committee reported that during the implementation process there were problems with the VVSAS Scoring: Vulnerability to Victimization, Sexually Aggressive Behavior, Violent Aggressive Behavior and Overall Scoring. The screening instrument was send to the Agency IT Offices for corrections.

This standard remains non-compliant because the agency is having problems with the implementation of the new screening instrument. According to the agency PREA coordinator the agency will needs more time for the IT Office to correct the problem. The 180 days corrective action period began 9/24/18 and will end 3/24/19.

Rating: Non-Compliant

Standard 115.342 – Placement of residents in housing, bed, program, education, and work assignments

- **Concern:** The standard requires the facility to use all information obtained from the Vulnerability to Victimization, Sexually Aggressive Behavior, and Violent Aggressive Behavior instrument to make housing, bed, program, education, and work assignments for residents with the goal of keeping all residents safe and free from sexual abuse.

The agency is not conducting PREA screening, without the implementation of the New VVSAS instrument the facility are unable to use all information obtained to make housing, bed, program, education, and work assignment for residents with the goal of keeping all residents safe and free from sexual abuse.

The agency has provided the auditor with a copy of the draft Vulnerability of Victimization or Sexual Aggression Screening (VVSAS) standardized risk assessment tool. This standard remains non-compliant because the agency is having problems with the implementation of the new screening instrument. According to the agency PREA coordinator the agency will needs more time for the IT Office to correct the problem. The 180 days corrective action period began 9/24/18 and will end 3/24/19.

Rating: Non-Compliant

Standard 115.351 – Resident Reporting

- **Concern:** The standard requires the facility to provide least one way for residents to report abuse or harassment to a public or private entity or office that is not part of the agency and that is able to receive and immediately forward resident reports of sexual abuse and sexual harassment to agency officials, allowing the resident to remain anonymous upon request. Residents detained solely for civil immigration purposes shall be provided information on how to contact relevant consular officials and relevant officials at the Department of Homeland Security.

Interviews with staff indicated that if a resident was detained solely for civil immigration purposes and requested information, the facility does not have the required information on how to contact relevant consular officials and relevant officials at the Department of Homeland Security.

- o **Corrective Action: After** a discussion with the facility administrator, the facility downloaded and printed copies of the civil immigration resource book from the United States Department of State/Homeland Security that will be maintain in the

intake office and the resident library. Effective 08/07/18 at 4:13 pm the required documents were placed in the facility library and intake office.

Rating: Compliant

Standard 115.352: Exhaustion of Administrative Remedies

Concern: During the review of the 2017, grievances for MEC there were questions as to when an administrative review (grievance) stopped and an investigation began.

- **Corrective Action:** The agency Office of the Inspector General (OIG) provided a statement clearly defining when a grievance review ends and a criminal investigation starts. Agency policy revisions have been submitted and are in process.

Rating: Compliant

Concern: A review of the alleged PREA grievances indicated that a resident filed a grievance that may not be picked up from the grievance box in a timely manner. The current process allows for grievances not to be picked up for days, allowing for an allegation to go longer than a day or two without being addressed.

- **Corrective Action:** The agency processes have been updated to require that grievances boxes are checked at a minimum of three times per week by Juvenile & Family Relations coordinators. When unavailable, the facility administrator or their designee will ensure grievances are retrieved in a timely manner.

The Office of the Inspector General and Juvenile and Family Relations staff, along with the PREA Unit revised the process for retrieving grievances. Grievance boxes will be checked three times a week.

Rating: Compliant

Standard 115.367: Agency Protection against Retaliation

- **Concern:** The agency shall protect all residents and staff, who report sexual abuse or sexual harassment or cooperate with sexual abuse or sexual investigations, from retaliation by other residents or staff and shall designate which staff members or departments are charged with monitoring retaliation. JDC reported 16 PREA allegations. The facility could not provide documentation that any allegations were monitor for retaliation.

- **Corrective Action:** The PREA Unit has developed a formal monitoring form that will be used to document all retaliation activities. A copy of the title “PREA Retaliation Monitoring Form” was provided to the auditor.

Rating: Compliant

Standard 115.371: Criminal and Administrative Agency Investigations

- **Concern:** A review of the agency policies, to include the agency Investigations policy number I-3.5, does not have guidance regarding timeframes in closing PREA investigations.

DOJ Investigative question #6 “What would be the first steps in initiating an investigation and how long would they take?” The investigator could not give a timeframe when PREA should be closed.

A meeting with the Office of Investigations (chief investigator, agency investigator, management review supervisor, agency PREA coordinator, and the deputy director for Investigative Services) timeframes for closing out a case is not documented anywhere as understood from the meeting.

- **Corrective Action:** The agency inspector general and chief of investigations, along with the quality control manager for the Division of Investigative Services have specified time frames for investigations to start and end. This includes a concession for extensions if additional time is needed. Agency policy is being updated to reflect the new process.

Rating: Compliant

Standard 115.401: Frequency and Scope of Audits

13. Interviews:
 - a. Facility administrator
 - b. Higher level facility staff

A. The Midlands Evaluation Center develops documents, makes its best efforts to comply on a regular basis with a staffing plan that provides for adequate levels of staffing, and uses video monitoring to protect residents against abuse. An interview with the facility administrator indicated that the facility takes into consideration:

1. Generally accepted correctional/secure residential practices.
2. Judicial findings.
3. Federal investigation findings.
4. Findings from internal or external oversight bodies.
5. Facility's physical plant to include "blind spots".
6. Composition of resident population.
7. Placement of supervisory staff.

8. Facility Programs occurring on different shift.
9. Agency policies, state or local laws, regulations, or standards.
10. Other relevant factors.

B. An interview with the facility administrator revealed that each time the staffing plan was not complied with, the facility would document and justifies all major deviations from the staffing plan.

Cameras are strategically located to supplement staffing and to enhance supervision of residents. The auditor is not going to provide further information related to the cameras because of security concerns; however, observations made during the tour confirmed this facility has a considerable number of cameras strategically located throughout the facility supplementing supervision inside and outside the facility.

C. The facility is maintaining staff ratios of a minimum of 1:8 during resident waking hours and 1:16 during resident sleeping hours. If there were an exigent circumstance which causes the facility to deviate for the general staffing plan, the facility will fully document. The facility administrator's interview confirmed that there were no major deviations from the staffing schedule; however, the facility has not met the 1:8 and the 1:16 100% of the time.

D. Interview with the facility administrator revealed that at least annually, in collaboration with the PREA coordinator and management team, the facility reviews the staffing schedule to see whether adjustments are needed in:

- The staffing plan/schedule;
- Prevailing staffing patterns;
- The facility's deployment of video monitoring systems and other monitoring technologies;
- The resources the agency/facility has available to commit to ensure adequate staffing levels.

E. Documentation of unannounced rounds to identify and deter staff sexual abuse and sexual harassment were conducted on night shifts as well as day shifts. Unannounced rounds were conducted by intermediate-level and higher level supervisors and managers. Staff interviews indicated that they are prohibited from alerting other staff of unannounced rounds.

A review of the Pre-Audit Questionnaire Juvenile Facilities and confirmed by staff interview:

- Since the last PREA audit, the average daily number of residents reported was 60.
- Since the last PREA audit the average, daily number of residents on which the staffing plan was predicated reported was 80.

Interview Results

- Interviewed facility administrator and the facility PREA compliance manager indicated that they are consulted regarding any assessment of or adjustments to the staffing plan.
- Interviewed facility administrator and the facility PREA compliance manager indicated that the facility has a staffing plan/staffing roster. When assessing adequate staffing levels and the need for video monitoring they consider all of the components listed in the standard.

Instructions for Overall Compliance Determination Narrative

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor's conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

The following evidence was analyzed in making the compliance determination:

Supporting Documents, Interviews and Observations

1. Curriculum for Cross Gender Training
2. PREA Audit: Pre-Audit Questionnaire Juvenile Facilities
3. PREA Poster: Opposite Gender Must Announce Upon Entry (Spanish and English)
4. SCDJJ Policy H-3.16 Application of the PREA Standards (A,B,C,E) –03/05/18

5. SCDJJ Policy H-3.8 Search Procedures
6. SCDJJ Policy H-3.8B Cross-Gender Search Documentation Form
7. SCDJJ Policy G-9.41 Supervision of Juveniles in Secure Residential Facilities
8. Interviews:
 - a. Random officers
 - b. Non-medical staff cross gender searches
 - c. Random residents

A. The facility staff do not conduct cross-gender pat-down searches, strip searches or cross-gender visual body cavity searches except in exigent circumstances or when performed by medical practitioners. Documentation review indicated the facility reported no exigent circumstances for this audit period. The facility will maintain documentation when exigent circumstances occur. The facility's search policy prohibits staff from conducting pat-down searches, strip searches or cross-gender visual body cavity searches except in exigent circumstances or when performed by authorized medical personnel.

B. Agency requires the facility to implement policies and procedures that enable residents to shower, perform bodily functions, and change clothing without non-medical staff of the opposite gender viewing the breasts, buttocks or genitalia, except in exigent circumstances or when such viewing is incidental to routine room/cell or bed checks.

Agency policy and procedures requires staff of the opposite gender to announce their presence when entering a resident housing unit. The facility has signs posted on the doors of each housing unit as a reminder to staff.

Observations of restrooms and shower during the tour confirmed residents have privacy when using the restroom, showering, and changing clothing. PREA friendly shower curtains are at the doorway of the bathrooms and the shower areas to provide privacy. Residents reported they are never naked in full view of staff.

C. During the onsite audit visit there were no transgender or intersex residents housed. If the facility were to receive a transgender or intersex resident, the Agency staff will not search or physically examine a transgender or intersex resident for the sole purpose of determining the resident's genital status. If the resident's genital status is unknown, the facility determines during conversations with the resident, by reviewing medical records, or, if necessary, by learning that information as part of a broader medical examination conducted in private by a medical practitioner.

The Facility PREA Manager confirmed there have been no cross-gender strip-searches or visual body cavity searches conducted within the audited cycle.

A review of the Pre-Audit Questionnaire Juvenile Facilities and confirmed by staff interviews:

- In the past 12 months, the number of cross-gender strip or cross gender visual body cavity searches of residents reported was zero.
- In the past 12 months, the number of cross-gender strip or cross-gender visual body cavity searches of residents that did not involve exigent circumstances or were performed by non-medical staff reported was zero.
- The number of pat-down searches of female residents that were conducted by male staff reported was zero.
- The number of pat-down searches of female Residents conducted by male staff that did not involve exigent circumstances reported was zero.
- In the past 12 months, the number of transgender or intersex residents search or physically examine for the sole purposes of determining the resident's genital status was zero.

Interview Results:

- Twelve (12) security staff, representing staff from all three shifts, was interviewed. One hundred percent (100%) of staff interviewed indicated that cross-gender pat searches were prohibited and not conducted. Several of the seasoned staff reported that they used to be able to conduct cross gender pat down searches but that is now prohibited. If there is not a same sex staff available to conduct the search, they will seek assistance from another facility that is located on the same physical grounds.
- The interviewed security staff reported that the facility prohibits security staff from conducting searches to determine a resident's genital status. Over half of the staff, reported that outside contracted medical services would make that determination. Two (2) staff reported that they were trained only to search the same sex body part of the transgender resident. For example, if the resident had breast and a penis then the female staff would search the breast and the male staff would search the penis area. *This information was brought to the attention of the facility as being improper.*
- Ten (10) residents were interviewed. One hundred (100%) percent of the residents interviewed reported that staff of the opposite gender announce their presence when entering the housing areas. All the residents reported that no one could see them when they are showering, using the toilet, or changing clothes. One hundred percent (100%) of the residents reported that staff of the opposite gender do not perform pat down searches of their body.
- One hundred percent (100%) of the interviewed staff reported that staff of the opposite gender announces their presence when entering the housing area. All residents can dress shower and toilet without being viewed by staff of the opposite

gender. Staff and residents reported that when showering, the opposite gender is not allowed in the housing area.

Instructions for Overall Compliance Determination Narrative

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor's conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

The following evidence was analyzed in making the compliance determination:

Supporting Documents, Interviews and Observations

1. List of New Hires
 2. List of Promoted Staff
 3. PREA Audit: Pre-Audit Questionnaire Juvenile Facilities
 4. SCDJJ Policy B-3.3 Employee Report of Arrest, Conviction, Child Abuse Registry, or Loss of Driver's License
 - a. Criminal History and Driver's License checks conduct annually on all employees
 - b. Child Abuse Registry checks conduct every 5 years on all employees
 5. Background Investigations
 6. SCDJJ Policy H-3.16 Application of the PREA Standards (E) - 03/05/18
 7. SCDJJ Policy B-3.18 Employee Recruitment and Selection
 8. SCDJJ Hiring Packet Checklist
 9. Interviews:
 - a. Facility PREA compliance manager
 - b. Human Resource staff
- A.** The agency requires the facility not to hire or promote anyone who may have contact with residents, and does not enlist the services of any contractor who may have contact with residents as listed in this standard to include the following provisions:

1. Has engaged in sexual abuse in a prison, jail, lockup, Juvenile facility, juvenile facility, or other institution; to include persons who are mentally ill or disabled or retarded or chronically ill or handicapped, or institution providing skilled nursing or intermediate or long-term care or custodial or residential care.
 2. Has been convicted of engaging or attempting to engage in sexual activity in the community facilitated by force, overt or implied threats of force, or coercion, or if the victim did not consent or was unable to consent or refuse; or
 3. Has been civilly or administratively adjudicated to engage in the activity described in subsection 2.
- B.** Policy requires that before hiring new employees who may have contact with residents, the facility will perform a criminal background check; and consistent with Federal, State and local law, make its best efforts to contact all prior institutional employers for information on substantiated allegations of residents or detainee sexual abuse or harassment or any resignation pending an investigation of such allegations.
- C.** Agency completes a criminal background records check before enlisting the services of contractors who may have contact with residents. The agency also requires the facility to conduct criminal background record checks every five years of current employees and contractors who have contact with residents according to staff interviews.
- D.** The agency prohibits staff from material omissions and the provision of materially false information.
- E.** Interview with Agency Human Resource Staff indicated that when a former employee applies for work at another facility, upon request from that facility, they would provide requested information as long as it does not violate policies or laws.

A review of the Pre-Audit Questionnaire Juvenile Facilities and confirmed by staff interviews:

- In the past 12 months, the number of persons hired who may have contact with residents who have had criminal background checks was 20.
- In the past 12 months, the number of contract for services where criminal background record checks were conducted on all staff covered in the contract that might have contact with residents was 60.

Interview Results:

- Interviewed Human Resources staff and a review of the staff files confirmed that background clearances are completed and placed in the employee personnel files.
- The Human Resources staff was able to walk the auditor through staff personnel files describing a background clearance process that included a background check for felonies, misdemeanors, nationwide sex offender searches, and fingerprints. Reviewed files contained the required documentation and clearances. Staff described the Child Abuse and Neglect Reports conducted by DHR. Staff also indicated PREA questions are given to applicants prior to their interviews.
- Interviewed Human Resources staff indicated that criminal record background checks are performed on all newly hired employees and contractors during the clearance process. This is done regardless of whether they may have contact with offenders.
- **Concern:** The standard requires the agency not hire or promote anyone who may have contact with residents, and shall not enlist the services of any contractor who may have contact with resident who:
 1. Has engaged in sexual abuse in a prison, jail, lockup, community confinement facility, juvenile facility, or other institution;
 2. Has been convicted of engaging or attempting to engage in sexual activity in the community facilitated by force, overt or implied threats of force, or coercion, or if the victim did not consent or was unable to consent or refuse;
 3. Hire or promoted person has been civilly or administratively adjudicated to have engaged in any sexual activity.

The agency does not ask applicants, new hires or promote staff information regarding prior history of sexual abuse as required by the standard and cannot provide documentation.

- **Corrective Action:** On 08/07/18, several representatives from the Office of Human Resources, including the HR Director met with the auditor to review and determine if this office complied with the PREA standard 115.317. After the review, it was determined that there was a deficiency. The Office of Human Resources corrected this deficiency on 08/07/18 and provided the auditor with evidence and proof of the correction via email. The deficiency was corrected by adding the required information in a question format as a part of the State

Employment Application under the agency-wide questions section of the application.

15. Interviews:

- a. Facility PREA compliance manager
- b. Volunteer
- c. Contractor

- A.** The agency/facility trains all volunteers and contractors who have contact with residents on their responsibilities under the facility's sexual abuse and sexual harassment prevention, detection, and response policies and procedures.
- B.** Interviews and documentation indicated that the levels and types of training provided to volunteers and contractors are based on the services they provide and the contact they have with residents. All volunteers and contractors are notified of the facility's zero-tolerance policy regarding sexual abuse and sexual harassment and are informed how to report alleged incidents.
- C.** The facility maintains documentation confirming that volunteers and contractors understand the training they received. The agency/facility documents volunteer and contractor training using rosters which require the date of training and the signature of the volunteers, contractors, and instructor.

A review of the Pre-Audit Questionnaire Juvenile Facilities and confirmed by staff interviews:

- In the past 12 months, the number of volunteers and individual contractors who have been trained in agency policies and procedures regarding sexual abuse/harassment prevention, detection, and response was 48.

Interview Results:

- Interviewed volunteers and contractors indicated that during orientation they completed PREA training covering their responsibilities regarding sexual abuse and sexual harassment and the agency policy on zero-tolerance.

Concern: The standard requires the agency to ensure that all volunteers and contractors who have contact with residents have been train on their responsibilities under the agency's sexual abuse and sexual harassment prevention, detection, and response policies and procedures.

Interview with a volunteer on-site indicated that the facility or agency has not provided the required PREA training.

- **Corrective Action:** The agency provided documentation that the volunteer received the required PREA training and signed documentation stating they understood the zero-tolerance policy.

Rating: Compliant

Concern: The language in the volunteer protocol needs to require volunteers to report PREA incidents immediately to staff and/or supervisor on duty. The current language requires volunteers to report PREA incidents to the Office of Volunteer Services or the Facility Volunteer coordinator, which delays the reporting process of sexual abuse and/or sexual harassment.

Interview with the facility volunteer coordinator revealed that two weeks ago a volunteer reported that a female resident pulled her the side and reported that she was a part of a “sex trafficking group”. According the facility volunteer coordinator, it was reported to the Office of Volunteer Services. I have requested all documentations to include the investigation report. It appears that the PREA allegation did not get to the appropriate office in a timely manner.

- **Corrective Action:** The agency provided a memo in response to item “5” on the Corrective Action Plan form provided; the following item have been completed. To correct the deficiency, the Juvenile Detention Center provided the PREA Unit with a copy of the completed form A-5.5F; Volunteer’s Certification of Orientation and DJJ Policy H-Agreement, to ensure compliance with Juvenile Facility standard 115.332 (a) and DJJ Policy H-3.16 (D).

10. SCDJ Juvenile Detention Center Information on PREA
11. Interviews:
 - a. Intake Staff
 - b. Random Residents

A. Staff interviews and documentation review indicated that during the intake process, residents receive information explaining the facility's zero-tolerance policy regarding sexual abuse and sexual harassment and how to report incidents or suspicions of sexual abuse or sexual harassment.

B. Policies require that within 10 days of intake, the facility provides comprehensive age-appropriate education to residents either in person or through video regarding their rights to be free from sexual abuse and sexual harassment and to be free from retaliation for reporting these incidents. During intake, residents are given the handbook. During orientation, additional PREA related information is provided and

the video is shown. The staff conducting intake/orientation gives residents the opportunity to ask questions to clarify anything they do not understand. Residents acknowledge through interviews and documentation that they received PREA information.

- C. All residents at the facility received information and have been educated on PREA. Residents that transfer to the facility also receive the required PREA education.
- D. Resident interviews confirmed that the facility provides resident education in formats accessible to all residents, including limited English proficient, deaf, visually impaired, disabled, as well as to residents who have limited reading skills. Staff and resident interviews reveal that the facility provides the PREA education in English and Spanish, to include resident handbooks and posters.
- E. The facility maintains documentation of resident participation and receiving PREA information in the education sessions. The residents are required to sign a roster; the roster is dated and is witnessed by staff signature. In addition to providing PREA education, the facility ensures that key information is continuously and readily available and visible to residents through posters, resident handbooks, and other written formats.

A review of the Pre-Audit Questionnaire for Juvenile Facilities and confirmed by staff interview:

- The number of Residents admitted during past 12 months who were given this information at intake reported was 732.

Interview Results:

- Interviewed intake staff indicated that during intake and orientation all residents to include transfers from other facilities are educated on the zero tolerance policy and how to report incidents or suspicion of sexual abuse or sexual harassment. In general, this information is given during the intake process within 30 days.
- Ten (10) residents were interviewed. All but one (1) resident reported that they recalled receiving information upon intake and orientation regarding sexual abuse and harassment, how to report and their right to not be punished for reporting. The youth reported watching a PREA video and signed a form.
- Only one (1) resident was aware of the PREA Hotline. The resident stated that the staff did not tell them about the hotline; however, another youth stated that the phone on the unit was for PREA calls. When probed, most of

the residents could not recall receiving a handbook that included information about PREA. However, the numbers were posted for the hotline.

13. Interviews:
 - a. Facility administrator
 - b. Facility PREA compliance manager
 - c. Staff screening for risk of victimization and abusiveness
 - d. Random residents
 - e. Intake staff
 - f. Counseling staff

- A.** The facility assesses all residents during intake screening to include residents that transfer from other facilities for risk of being sexually abused.

Interviews and documentation revealed that intake screenings are taking place within 72 hours of arrival at the facility. In addition, during intake screening, procedures require staff to review available documentation (judgment and sentence, commitment orders, criminal records, investigation reports, field and medical files) for any indication that resident has a history of sexually aggressive behavior. The facility does not have the required PREA screening instrument.

- B.** The facility does not use an objective screening instrument. Staff interviews and documentation review reveal that the Screening for Risk of Victimization and Abusiveness did not include all the following:

- Prior sexual victimization or abusiveness.
- Whether the resident has a mental, physical, or developmental disability.
- The age of the resident.
- The physical build of the resident.
- Whether the resident has previously been incarcerated.
- Whether the resident's criminal history is exclusively nonviolent.
- Whether the resident has prior convictions for sex offenses against an adult or child.
- Whether the resident is or is perceived to be gay, lesbian, bisexual, transgender, intersex, or gender nonconforming.
- Whether the resident has previously experienced sexual victimization.
- The resident's own perception of vulnerability.
- Other specific information about individual residents that may indicate heightened needs for supervision, additional safety precautions, or separation from certain other residents.

- C.** Staff interviews for conducting Screening for Risk of Victimization and Abusiveness indicated that the facility uses information from conversations with the resident during the intake process, medical and mental health screenings (during classification assessments) and by reviewing court records, case files, facility behavioral records, and other relevant documentation from the resident's files.

Interviews and documentation reviewed indicated that the staff does not reassess the residents' risk level for sexual victimization or sexual abusiveness whenever warranted and within 30 days of arrival at the institution if the resident is identified at risk for victimization or for being at risk for being sexually abusive.

Residents are not disciplined for refusing to answer, or for not disclosing complete information in response to any PREA questions.

- D.** The agency implements appropriate controls on the dissemination within the facility of responses to questions asked pursuant to this standard in order to ensure that

sensitive information is not exploited to the resident's detriment by staff or other residents as described above.

A review of the Pre-Audit Questionnaire Juvenile Facilities and confirmed by staff interviews:

- The number of residents entering the facility (either through intake or transfer) within the past 12 months (whose length of stay in the facility was for 72 hours or more) who were screened for medical or mental health within 72 hours of their entry into the facility was 732.

Interview Results:

- All the interviewed residents have entered the facility within the past 12 months. All but one (1) interviewed resident could recall if they were asked questions about prior sexual history of sexual abuse, or whether they identified as being gay, lesbian, or bisexual, had a disability, or felt in danger of sexual abuse. These questions were asked upon arrival and during the intake process. Only three (3) residents recalled being asked again by medical and mental health staff. It should also be noted that most of the residents have been detained at the facility for less than two months.
- 100% of the residents reported feeling safe and that sexual assault and such behaviors do not occur at the facility.
- Interviewed facility administrator, PREA compliance manager, and intake and counseling staff are the only staff members who have access to resident's assessments, in order to protect sensitive information from exploitation.
- Interviewed staff indicated that the initial intake screening assessment did not consider all the requirements listed in this standard.
- Interviewed staff indicated that the process for conducting the initial intake screening is a checklist and in written format.
- Interviewed staff indicated that the staff does reassess resident's risk level as needed due to referrals, request, incident of sexual abuse, or receipt of additional information that bears on the resident's risk of sexual victimization or abusiveness.

Concern: The standard requires, within 72 hours of a resident's arrival at the facility and periodically throughout a resident's confinement, that the facility obtain and use information about each resident's personal history and behavior to reduce the risk of

sexual abuse by or upon a resident. Such assessment shall be conducted using an objective screening instrument and at a minimum, ascertain of the information below:

- Prior sexual victimization or abusiveness;
- Any gender nonconforming appearance or manner or identification as lesbian, gay, bisexual, transgender, or intersex, and whether the resident may therefore be vulnerable to sexual abuse;
- Current charges and offense history;
- Age;
- Level of emotional and cognitive development;
- Physical size and stature;
- Mental illness or mental disabilities;
- Intellectual or developmental disabilities;
- Physical disabilities;
- The resident's own perception of vulnerability; and
- Any other specific information about individual residents that may indicate heightened needs for supervision, additional safety precautions, or separation from certain other residents.

The facility does not have a risk of sexual victimization and abusiveness screening instrument that meets all 11 requirements of the standard. The facility is not conducting PREA Screenings. However, the facility is conducting intake screenings, medical screening, and mental health screenings. The facility practice does not ensure that all residents are assessed for risk of sexual victimization and abusiveness during the intake screening using an objective screening instrument.

Additionally, the facility must consider prior acts of sexual abuse, prior convictions for violent offenses, and any history of prior institutional violence or sexual abuse if known to the facility.

The agency introduced the auditor to the MAZIE system as a screening system; however, this system does not assess or reassess all of the required components for risk of sexual vulnerability or abusiveness. The agency has created and provided the auditor with a standardized risk assessment tool to screen for sexual vulnerability or abusiveness instrument adapted with permission from the Colorado Division of Youth Services, 2017 with assistance from the PREA Resource Center, 2018. The new draft standardized risk assessment tool met all requirements include in the standard. The agency has formed a committee that includes psychologists and social workers to formalize the new process and oversee the implementation.

The agency also provided the guidelines on how to complete the PREA screening instrument and how to apply information obtained. Implementation of the new screening instrument was introduced at JDC and MEC facilities.

The New Vulnerability of Victimization or Sexual Aggression Screening (VVSAS) PREA Screening Instrument obtains the following information from the residents.

- Demographics
- Juvenile Information
- Juvenile Interview
- Age of Youth
- Experience in Institution
- Social Skills
- Perception of Risk
- History of Victimization
- Offense Type
- Violent Offense
- Intellectual Impairment
- Lack of “Fit” Adjustment
- SOGIE (Sexual Orientation, Gender Identity and Gender Expression)
- Medical Disabilities
- Mental Health
- VVSAS Scoring: Vulnerability to Victimization, Sexually Aggressive Behavior, Violent Aggressive Behavior and Overall Score
- Overall Risk Score
- Screening Override (Justification comments and override supervisor comments)

The committee reported that during the implementation process there were problems with the VVSAS Scoring: Vulnerability to Victimization, Sexually Aggressive Behavior, Violent Aggressive Behavior and Overall Scoring. The screening instrument was sent to the Agency IT Offices for corrections.

This standard remains non-compliant because the agency is having problems with the implementation of the new screening instrument. According to the agency PREA coordinator the agency will need more time for the IT Office to correct the problem. The 180 days corrective action period began 9/24/18 and will end 3/24/19.

Rating: Non-Compliant

Auditor Overall Compliance Determination

- Exceeds Standard** (*Substantially exceeds requirement of standards*)
- Meets Standard** (*Substantial compliance; complies in all material ways with the standard for the relevant review period*)

Instructions for Overall Compliance Determination Narrative

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor's conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

The following evidence was analyzed in making the compliance determination:

 12. Interviews:
 - a. Facility PREA compliance manager
 - b. Staff screening for risk of victimization and abusiveness (None)
 - c. Random residents
 - d. Staff screening for risk of victimization and abusiveness
 - e. LGBTI populations residents (None)

A. The facility does not have a PREA screening instrument, and therefore does not use the information from a risk screening to inform housing, bed, work, education and program assignments with the goal of keeping separate those residents at high risk for being sexually victimized by those at high risk of being sexually abusive.

B. Residents may be placed in “wet rooms” away from others only as a last resort when less restrictive measures are inadequate to keep them and other residents safe; and only until an alternative means of keeping all residents safety can be arranged. While in the wet rooms, residents are not denied of daily large-muscle exercise or any legally required educational programming or special education services. Medical and mental health care staffs are required to make daily visits. The facility is required to document the resident’s stay in the wet rooms.

According to staff interviews, residents do not stay in the wet rooms over 30 days. They are reassessed and released.

C. Interviewed staff indicated that lesbian, gay, bisexual, transgender, or intersex residents are not placed in housing units, beds, or other assignment solely on the basis on their sexual identification or status. According to staff the facility does not

consider lesbian, gay, bisexual, transgender, or intersex identification or status as an indicator of being sexually abusive.

- D.** The facility did not have any transgender or intersex residents during the audit period. If the facility receives a transgender resident, and in deciding whether to assign a transgender or intersex resident to which male living unit and in making other programming assignments, the facility will consider on a case-by-case basis whether a placement would ensure the resident's health and safety, and whether the placement would present management or security problems.

Staff interviews indicated that when making placement and programming assignments for each transgender or intersex resident the facility will reassess them to review any threats to safety experienced by the resident.

- E.** Staff interviews also indicated if they were to have a transgender or intersex resident, the resident's own views with respect to his or her own safety will be given serious consideration.
- F.** Transgender and intersex residents will be given the opportunity to shower separately from other residents.

A review of the Pre-Audit Questionnaire Juvenile Facilities confirmed by staff interviews:

- In the past 12 months, the number of residents at risk of sexual victimization who were placed in isolation was zero.
- In the past 12 months, the number of residents at risk of sexual victimization who were placed in isolation who have been denied daily access to large muscle exercise, and/or legally required education, treatment or special education services was zero.
- In the past 12 months, the average period of time residents at risk of sexual victimization were held in isolation to protect them from sexual victimization was zero.

Interview Results:

- One (1) resident interviewed identified as being lesbian or bisexual. The resident could not recall if it was reported at intake; however, they do not discuss it with other staff or youth. All youth at the facility shower by themselves. Overall the resident reported feeling safe.
-
- Interviewed facility PREA compliance manager indicated that the facility will not place lesbian, gay, bisexual, transgender, or intersex residents in dedicated units or wings solely based on identification status for protecting

such residents.

- Interviewed staff, to include the facility administrator and PREA compliance manager, indicated that the facility is not subject to a consent decree, legal settlement, or legal judgment. Staff indicated that the facility ensures against placing lesbian, gay, bisexual, transgender, or intersex residents in dedicated units or wings solely on the basis of their sexual orientation, genital status, or gender identity. The facility will house them in the general population unless requested by the resident for special housing for safety issues.

Concern: The standard requires the facility to use all information obtained from the Vulnerability to Victimization, Sexually Aggressive Behavior, and Violent Aggressive Behavior instrument to make housing, bed, program, education, and work assignments for residents with the goal of keeping all residents safe and free from sexual abuse.

The agency is not conducting PREA screening, without the implementation of the New VVSAS instrument the facility are unable to use all information obtained to make housing, bed, program, education, and work assignment for residents with the goal of keeping all residents safe and free from sexual abuse.

The agency has provided the auditor with a copy of the draft Vulnerability of Victimization or Sexual Aggression Screening (VVSAS) standardized risk assessment tool. This standard remains non-compliant because the agency is having problems with the implementation of the new screening instrument. According to the agency PREA coordinator the agency will needs more time for the IT Office to correct the problem. The 180 days corrective action period began 9/24/18 and will end 03/05/18.

Rating: Non-Compliant

23. Interviews:
 - a. Facility PREA compliance manager
 - b. Random officers
 - c. Random residents

- A.** Interviews with staff and documentation review indicated that the facility has established procedures allowing for multiple internal ways for residents to report

privately to agency/facility officials regarding sexual abuse and sexual harassment, retaliation by other residents or staff, to include staff neglect or violation of responsibilities that may contribute to PREA incidents. The following are internal reporting ways:

- Grievance Process
- Tell the Social Worker
- Reporting to any staff member either verbally or in writing
- Hotline
- Sick Call
- Writing an anonymous note

B. Interviews with staff and documentation indicated that the facility has established at least one way for residents to report abuse or harassment to a public or private entity that is not part the facility, that can receive and immediately forward resident reports of sexual abuse and sexual harassment to agency officials, and allow the resident to remain anonymous upon request. The following are external reporting ways:

- Hotline
- Family Members as Third-Party

If the facility received a resident detained solely for civil immigration purposes, the facility provides information on how to contact relevant consular officials and relevant officials at the Department of Homeland Security.

C. Staff interviews indicated that they accept reports made verbally, in writing, anonymously, and from third parties and report and document any verbal reports by the ended of the shift.

A review of the Pre-Audit Questionnaire Juvenile Facility confirmed by interviewed staff:

- In the past 12 months, the number of residents detained solely for civil immigration purposes was zero.
- In the past 12 months, the number of residents detained solely for civil immigration that was provided information on how to contact relevant consular officials and relevant officials of the Department of Homeland Security zero.

Interview Results:

- Interviewed Facility PREA compliance manager indicated that MEC is tasked with the obligation to house juvenile males and females residents. The facility does not detain residents solely for civil immigration purposes. However, if they receive and resident solely for civil immigration purposes

the facility will provide the resident with information on how to contact relevant consular officials and relevant officials at the Department of Homeland Security.

- All ten (10) interviewed residents stated that they had multiple ways to report. Most the residents reported that they could communicate with staff, write a grievance report, or tell family. All the residents indicated that they could report sexual abuse or harassment to someone who does not work at the facility; however, two (2) residents struggled to articulate who they could speak to outside of the facility. Three (3) residents reported feeling unsure that they could make a report without providing their name.
- One hundred percent (100%) of the interviewed staff reported that they have multiple means to privately report sexual abuse or harassment. Such reporting opportunities included the hotline number, shift supervisor, written statement, or PREA Compliance Manager. The interviewed line staff reported that the residents can privately reporting by calling the hotline number, completing a grievance form, notifying security, medical staff, or write a letter.
- One (1) resident reported to authorities, either in person or in writing, that they had been sexually abused or harassed while at the facility.

Concern: The standard requires the facility to provide least one way for residents to report abuse or harassment to a public or private entity or office that is not part of the agency and that is able to receive and immediately forward resident reports of sexual abuse and sexual harassment to agency officials, allowing the resident to remain anonymous upon request. Residents detained solely for civil immigration purposes shall be provided information on how to contact relevant consular officials and relevant officials at the Department of Homeland Security.

Interviews with staff indicated that if a resident was detained solely for civil immigration purposes and requested information, the facility does not have the required information on how to contact relevant consular officials and relevant officials at the Department of Homeland Security.

- **Corrective Action:** After a discussion with the facility administrator, the facility downloaded and printed copies of the civil immigration resource book from the United States Department of State/Homeland Security that will be maintain in the intake office and the resident library. Effective 08/07/18 at 4:13 pm the required documents were placed in the facility library and intake office.

115.352 (a)

- Is the agency exempt from this standard? NOTE: The agency is exempt ONLY if it does not have administrative procedures to address resident grievances regarding sexual abuse. (N/A if agency is exempt from this standard.) Yes No NA
- At any level of the administrative process, including the final level, if the resident does not receive a response within the time allotted for reply, including any properly noticed extension, may a resident consider the absence of a response to be a denial at that level? (N/A if agency is exempt from this standard.) Yes No NA

18. Event Report (ERMIS)
19. Interviews:
 - a. Facility PREA compliance manager
 - b. Residents reported sexual abuse (none)

- A.** The facility has an administrative process to address resident grievances; however, if a resident uses the grievance process to report sexual abuse, the grievance staff/coordinator immediately submits the grievance to PREA investigations. Thus, ending the grievance process and beginning the PREA investigation process.
- B.** The facility does not impose a time limit on when a resident may submit a grievance regarding an allegation of sexual abuse. A resident can submit a grievance at any time regardless of when the incident is alleged to have occurred. The agency has time lines on other portion of the grievance process that does not relate to sexual abuse. The agency does not require residents to use an informal grievance process or attempt to resolve alleged incident of sexual abuse with the staff member.
- C.** The facility has a process in place for residents who allege sexual abuse to submit a grievance without submitting it to staff member who is involved in the complaint, or refer it to a staff member who is the subject of the complaint.
- D.** When a staff receives a grievance that is PREA related it is immediately report to the PREA investigator; thus ending the grievance process and beginning the investigation process. If the grievance process moves forward, the facility issues a final decision on the merits of any portion of the allegation within 90 days of the initial filing.

The facility will claim an extension of time to respond, of up to 70 days, if the normal time period for response is insufficient to make an appropriate decision.

- E.** According to interviews, third parties, including fellow residents, staff members, family members, attorneys, and outside advocates, are permitted to assist resident in filing requests for administrative remedies relating to allegations of sexual abuse, and also permitted to file requests on behalf of resident.

If a third party files a request on behalf of a resident, the facility will require as a condition of processing the request that the alleged victim agree to have the request filed on his or her behalf, and may also require the alleged victim to personally pursue any subsequent steps in the administrative remedy process. If the resident declines to have the request processed on his/her behalf, the facility document the resident's decision.

- F.** The facility has established procedures for filing emergency grievances alleging that a resident is subject to a substantial risk of imminent sexual abuse.

According to interviews, when the facility receives an emergency grievance alleging a resident is at substantial risk of imminent sexual abuse, the staff immediately forwards the grievance for investigation.

- G.** Resident's documentation indicated that the facility may discipline a resident for filing a grievance related to alleged sexual abuse when the resident filed the grievance in bad faith.

A review of the Pre-Audit Questionnaire for Juvenile Facilities and confirmed by staff interview:

- In the past 12 months, the number of grievances alleging sexual abuse that reached a final decision within 90 days after being filed reported was zero.
Note: During the review of the 2017, grievances for MEC there were questions as to when an administrative review (grievance) stopped and an investigation began.
- The number of grievances alleging sexual abuse filed by residents in the past 12 months in which the resident declined third-party assistance, containing documentation of the Resident's decision to decline reported was zero.
- The number of emergency grievances alleging substantial risk of imminent sexual abuse that were filed in the past 12 months reported was zero.
- The number of grievances alleging substantial risk of imminent sexual abuse filed in the past 12 months that reached final decisions with five days reported was zero.

- In the past 12 months, the number of resident grievances alleging sexual abuse that resulted in disciplinary action by the agency against the resident for having filed the grievance in bad faith reported zero.

Interview Results:

- One resident reported sexual abuse/harassment within the last three weeks. The resident stated that they have not been notified of any next steps, as it relates to an investigation. Additionally, the resident stated that they were told that the officer is no longer allowed to search him. The alleged incident led to a fight between the officer and the youth. As reported by the facility, the allegations are currently under investigation.

Concern: During the review of the 2017, grievances for MEC there were questions as to when an administrative review (grievance) stopped and an investigation began.

- **Corrective Action:** The agency Office of the Inspector General (OIG) provided a statement clearly defining when a grievance review ends and a criminal investigation starts. Agency policy revisions have been submitted and are in process.

Rating: Compliant

Concern: A review of the alleged PREA grievances indicated that a resident filed a grievance that may not be picked up from the grievance box in a timely manner. The current process allows for grievances not to be picked up for days, allowing for an allegation to go longer than a day or two without being addressed.

- **Corrective Action:** The agency processes have been updated to require that grievances boxes are checked at a minimum of three times per week by Juvenile & Family Relations coordinators. When unavailable, the facility administrator or their designee will ensure grievances are retrieved in a timely manner.

The Office of the Inspector General and Juvenile and Family Relations staff, along with the PREA Unit revised the process for retrieving grievances. Grievance boxes will be checked three times a week.

Rating: Compliant

 15. Interviews:
 - a. Facility PREA compliance manager
 - b. Random residents
 - c. Residents reported sexual abuse (none)
- A.** The facility provides residents with access to outside victim advocates for emotional support services related to sexual abuse by giving residents the mailing address to the Rape Crisis Center and a toll free hotline number.
- B.** For residents detained solely for civil immigration purposes, the facility provides immigrant services information. Policy requires that facilities enable reasonable communication between residents and these organizations and agencies, in as confidential a manner as possible.

- C. The facility informs residents prior to them communicating with outside organizations that phone calls may be monitored and that reports of sexual abuse or sexual violence will be forwarded to authorities in accordance with mandatory reporting laws. Residents receive this information in their orientation.
- D. The facility has documentation of attempt to enter into memoranda of understanding and agreements with community services providers that are able to provide residents with emotional support services related to sexual abuse. Residents are provided with reasonable and confidential access to their attorney, other legal representation, and reasonable access to parents or legal guardians.

Interview Results:

- Ten (10) interviewed residents were asked if they were aware of services outside of the facility for dealing with sexual abuse. No residents could articulate, outside of law enforcement any knowledge or awareness of outside services that deal with sexual abuse. After probing, the only outside source they were aware of was law enforcement, 911, or Department of Social Services. Upon observation, a resident PREA pamphlet provided telephone numbers for outside victim advocacy and support. However, the youth could not recall receiving a pamphlet. The facility will reissue the pamphlets with the outside support information.
- One (1) resident reported sexual abuse/harassment in the last three weeks. He stated that he did not want to go any further with the report, but did notify staff of how he felt, the officer inappropriately searched him. The resident was not offered additional services, however did speak to the facility psychologist.

Concern: The standard requires the facility to provide residents with access to outside victim advocates for emotional support services related to sexual abuse, by providing, posting, or otherwise making accessible mailing addresses and telephone numbers, including toll free hotline numbers where available, of local, state, or national victim advocacy or rape crisis organizations, and for persons detained solely for civil immigration purposes, immigrant services agencies.

Interviews with staff indicated that if a resident was detained solely for civil immigration purposes and requested information, the facility does not have the required information on how to contact relevant consular officials and relevant officials at the Department of Homeland Security.

- **Corrective Action:** After a discussion with the facility administrator, the facility downloaded and printed copies of the civil immigration resource book from the

United States Department of State/Homeland Security that will be maintain in the intake office and the resident library. Effective 08/07/18 at 4:13 pm the required documents were placed in the facility library and intake office.

Concern: The agency shall protect all residents and staff, who report sexual abuse or sexual harassment or cooperate with sexual abuse or sexual investigations, from retaliation by other residents or staff and shall designate which staff members or departments are charged with monitoring retaliation. JDC reported 16 PREA allegations. The facility could not provide documentation that any allegations were monitor for retaliation.

- **Corrective Action:** The PREA Unit has developed a formal monitoring form that will be used to document all retaliation activities. A copy of the title “PREA Retaliation Monitoring Form” was provided to the auditor.

Interviews also revealed that if an assessment cannot be immediately completed, the facility will hold the resident in involuntary segregated housing for less than 24 hours while completing the assessment.

A review of the Pre-Audit Questionnaire for Juvenile and confirmed by interviewed staff.

- In the past 12 months, the number of residents who allege to have suffered sexual abuse who were placed in isolation was zero.

17. SCDJJ Policy I-3.2 Reporting Events
18. Interviews:
 - a. Facility administrator
 - b. Facility PREA compliance manager
 - c. Agency investigator

A. Interviews with the agency investigator indicated that when they conduct investigations into allegations of sexual abuse and sexual harassment; they do so promptly,

thoroughly, and objectively for all allegations, including third-party and anonymous reports. There was a concern regarding promptly.

- B.** The JDC uses investigators who have received special training in sexual abuse investigations. The investigators have completed the NIC online training.
- C.** Investigators gather and preserve direct and circumstantial evidence, including any available physical and DNA evidence and any available electronic monitoring data; interview alleged victims, suspected perpetrators, and witnesses; review prior complaints and reports of sexual abuse involving the suspected perpetrator. When a case has been substantiated allegations of conduct that appear to be criminal are referred for prosecution and the facility consults with the prosecutor. When an outside agency is investigating, the facility cooperates and remains informed about the progress of the investigation.
- D.** Interviewed staff and completed investigation reports revealed that all PREA investigations are administrative or criminal and documented in written format. Administrative investigations include an effort to determine whether staff actions or failures to act contributed to the abuse and documents a description of the physical and testimonial evidence, and investigative facts and findings. According to policy, the agency keeps these cases as long as the alleged abuser is incarcerated or employed by the agency, plus five years.

A review of the Pre-Audit Questionnaire for Juvenile and confirmed by interviewed staff.

- The number of substantiated allegations of conduct that appear to be criminal that were referred for prosecution since the last PREA audit was zero.

Interview Results:

- Interviewed staff indicated that the outside agency that investigates criminal sexual abuse keeps the facility informed of the progress of the investigation thru emails and the release of the final investigation report.
- Interviewed investigator indicated when a staff alleged to have sexual abuse terminates employment prior to a completed investigation into the conduct; the Investigator continues the investigation until completion.
- Interviewed investigator indicated all investigations are documented. The documentation includes descriptions of physical, testimonial, and documentary evidence, as well as attached copies of documentary evidence.

Concern: A review of the agency policies, to include the agency Investigations policy number I-3.5, does not have guidance regarding timeframes in closing PREA investigations.

DOJ Investigative question #6 “What would be the first steps in initiating an investigation and how long would they take?” The Investigator could not give a timeframe when PREA should be closed.

A meeting with the Office of Investigations (chief investigator, agency investigator, management review supervisor, agency PREA coordinator, and the deputy director for Investigative Services) timeframes for closing out a case is not documented anywhere as understood from the meeting.

- **Corrective Action:** The Agency Inspector General and Chief of Investigations, along with the Quality Control Manager for the Division of Investigative Services have specified time frames for investigations to start and end. This includes a concession for extensions if additional time is needed. Agency policy is being updated to reflect the new process.

In those cases in which the PREA Unit did not conduct the investigation, the relevant information will be requested from the investigative agency to inform the resident. The facility's obligation to a resident terminates if the resident is released from the department's custody.

B. Following resident's allegation that a staff member has committed sexual abuse against the resident, the facility will subsequently notify the resident (unless the allegation has been determined to be unfounded or unsubstantiated) when 1) the staff member is no longer in the resident's housing unit; 2) the staff member is no longer employed at the facility; 3) the facility learns that the staff member has been arrested on a charge related to sexual abuse within the facility; or 4) the facility learns that the staff member has been convicted on a charge related to sexual abuse within the facility. All notifications are documented. The facility's obligation to report under this standard terminates if the alleged victim is released from the department's custody.

When the facility notifies residents, it is done verbally and documented.

A review of the Pre-Audit Questionnaire for Juvenile and confirmed by staff interview:

- Of the alleged sexual abuse investigations that were completed in the past 12 months, the number of residents who were notified, verbally or in writing, of the results of the investigation was zero.
